## About the Regional Meetings

The Small School Districts' Association holds 4-6 Regional Meetings throughout the state of California every year in the fall. SSDA works with local small district superintendents to develop an agenda that addresses the specific needs of districts in the region.

The Regional meetings are formatted with 4 to 5 different topics specific to current district issues and educational legislation. This special formatting allows you to receive the most information in one day.

SSDA Regional meetings are generally attended by 40 to 60 small district superintendents and board members. This small-group format provides a unique opportunity for networking and relationship building among colleagues in your area.
